

Attention Members

We here at Kinetix have been diligently monitoring the evolution of the current COVID-19 (coronavirus) situation and it is our priority to ensure that all staff and members have a safe and healthy environment within our facility.

With this, to best ensure the health of our staff and members and alleviate any potential spread of this COVID-19 **we have made the decision to cancel all group fitness classes and childcare effective Wednesday March 18th**. At this point in time, all group fitness classes and our childcare facility will remain closed for two weeks, but that is subject to change based off of the continued evolution of this situation.

We understand that canceling these two services will have an affect on our members, but we appreciate your understanding and patience during this time. While classes are canceled, we plan to **offer LIVE classes** that members can access via our social media outlets to stay active and healthy within their homes.

As a member we ask that you continue to follow the Center for Disease Control and Prevention Guidelines and take all necessary precautions to protect yourself. ***If you choose to still use our facility during this time***, we ask that all members continue to wipe down their equipment before and after each use, that they are regularly washing their hands with soap and water, covering their coughs and sneezes, limiting contact with others, and or remaining at home if they feel sick.

We are continuing to increase our cleaning and disinfecting measures within the facility to ensure that all members have a clean environment and we appreciate our members assisting us in this matter.

Please continue to stay up to date with the COVID-19 situation via local and national news outlets and continue to follow our social media pages as well as our emails, to ensure that you have the most up to date information about our facility.

Thank you for your patience and understanding as we continue to navigate this challenging situation.

Kinetix Management Team
